A GREAT DAY OUT WITH YOUR DOG.

**GALEN
THERAPY
CENTRE**

Enriching the lives of dogs

Massage has huge benefits for dogs with mobility issues of any kind including arthritis, it is also a great tool to use if you have a sporting or working dog, almost every dog will benefit in some way from massage treatment. **This workshop is great for pet owners and also professionals.**

Want to learn more? What the day will cover:

- How environmental stresses can affect your dog
- The impacts of everyday actions on your dog and what you can do about it
- The discussion of case histories
- Study various footage to understand how injury can affect your dog's ongoing mobility
- The benefits of massage
- How stress affects the dog and how massage helps
- Canine anatomy and comparative anatomy
- Basic information of the circulatory and lymphatic systems
- The skeletal structure of the dog
- Superficial 'bony' landmarks
- The main muscular groups
- How to massage your dog effectively using dedicated techniques
- Practice performing 'passive movement' to enhance joint health and range of movement
